

**More and more** everyday internet marketing is heading towards the forefront of advertising for any size business. With hundreds of thousands of people searching for businesses like yours every month, there is no reason not to take the plunge into the world of online marketing.

After we have achieved top page placement in many categories tailored directly towards your clients monthly maintenance is required to keep your placements from slipping down the rankings and disappearing from the engines all together.

Many companies that are looking to make a quick buck try to sell their clients on one time SEO services, not taking into account the future of that clients business. At national PC Solutions we provide full solutions with maintenance, **without a contract or obligation**.

We only want you to continue using our services if you are making money, just like you would do with any other advertising for your business. With a **100% success rate we can guarantee** that our services will at least double your investment within the first few months, and continue to grow from there. And with the **lowest market rates, starting at \$299 a month**, and our 100% guarantee there is virtually no risk to our clients.

We have several different packages to choose from, below a comparison chart of our main packages; however if you have special requirements, we are always more than happy to put together a specialized package to address all of your companies needs.
